

How to submit an Article?

For submission of your article for peer-review United Life journals use the online [Electronic Submission System \(ESS\)](#).

- Find the **Submit Your Manuscript** link on the journal's homepage. You will be prompted to log into United Life Publications.
- New users need to click the **Register new account** link. You will be redirected to Registration page of (ULP). Fill the Registration form and click submit.
- After completing the registration, a confirmation link will be sent to the corresponding author's (Register author) email address for the confirmation. After receiving the link, users should click the link for activating their account.
- After completing the registration an acknowledgement mail will be sent to the corresponding email address.
- Users who had already registered need not register again. Users can use their username, and password for the logging in to their accounts.
- Once authors are logged into United Life Publications (ULP), they will be guided stepwise throughout the submission process.
- During the submission process author must click the checkbox provided to accept the covering letter and copyright form agreements which are automatically generated before submitting their manuscript.
- Authors need not submit covering letter and copyright form separately through mail or post.
- There are many benefits of registering with United Life Publications (ULP), including increased review and publication speed, article tracking and receiving e-mail alerts.
- Authors are encouraged to submit their manuscript's only through the online submission system. After submitting their manuscript successfully, authors will receive an acknowledgement email with an unique manuscript id. Authors can use this manuscript id for all future correspondence.
- In case there are any difficulties in online submission process and authors cannot submit their manuscript, they are requested to send their manuscript through email to editor@ulp.com
